4	Summary

Saudi Arabia

- **Land Area:** 2,000,000 sq km
- **Total Population:** 28 Million
More than 8 Million foreign workers
- **Population Growth:** 2.21%

The TVTC PPP project aims at improving capacity, quality, and perception on TVET in the kingdom of Saudi Arabia

From...

Capacity

- 110,000 students enrolled in TVET today

Quality

- No clear link to international quality standards
- Lack of third party quality assurance

Perception

- 300,000 students by 2020

- Highest international quality standards delivered by international providers
- Newly set up independent regulator to conduct quality assurance across colleges

The organizational elements crucial to the success of these new PPP colleges have been launched

Covered in depth

1 Saudi Skills Standards: a best-in-class regulator

- **Tests** students
- **Inspects** colleges
- Defines new national **skills standards** for technical training

2 A “PPP unit” (COE) to manage international providers

- **Manages** tenders and contracts
- Provides operational and educational **support**
- Managing **assets**

3 Improved labour market intelligence to inform strategy

- Student capacity model to predict the **need** for future programmes
- Cost-benefit model to determine the **value** of programs

4 Branding and marketing, to distinguish the new system

- Clearly **differentiate** the new colleges
- **Explain** the role of the new regulator
- Inform **decisions** about training and careers

1 Saudi Skills Standards has been established, first staff is onboard and first priority NOSS are online

Role of Saudi Skills Standards

Define and maintain National Occupational Skills Standards (NOSS)

- Analyze labour market needs and **identify priority occupations**
- Collaborate with private sector to **develop standards** for key occupations
- Maintain and **update standards**

Assess and accredit students to ensure they have the right skills

- **Develop and administer** tests for all TVET occupations, both **knowledge based** (in dedicated computer centers) and **practical** (with the involvement of employers)
- **Award stamp of approval (accreditation)** that is respected by employers locally and within the region

Review and accredit institutions

- **Conduct reviews** to measure performance
- **Enforce change** and drive improvements where necessary
- **Collect and provide evidence** to relevant parties to inform accreditation and licensing decisions

2 Colleges of Excellence started operation and key processes are being developed

■ Outsourced

Rationale for setting up COE (PPP unit)

- **Managing relationship to PPP providers requires different skills** than currently existing in TVTC (e.g., managing contracts and payments based on KPIs versus developing curriculum)
- **Payment of providers** based on detailed tracking of performance outcomes can circumvent bureaucratic processes
- **Procurement processes** to tender colleges can be accelerated
- **Performance management of talent** will be more effective in an LLC, with a “customer service” mindset towards providers

PPP strategy, marketing and branding

Tendering and contracting with providers

Managing assets

Coordinating with employers

Providing administrative support to PPP colleges

Providing educational support to PPP colleges

- Determining the **need for PPP** colleges
- Further **refinement** of the PPP model
- **Communicating** PPP to students, parents employers, parents and others
- **Attracting** providers, running the **tender process** and managing provider **performance** against KPIs
- Ensuring **existing colleges** assets are well allocated and utilised
- Coordinating **housing** supply for staff
- **Helping PPP colleges** forge relations with employers
- Encouraging the creation of **new SPs**
- Managing **payment**, supporting with **visas** and **interaction** with other government agencies
- Coordinating student **applications** and trainer recruitment
- **Fostering linkages** between colleges and offering **educational advice** based on NCEPA inspection results

4 A major marketing and branding campaign has been launched

1.1 Brand Essence

The compelling truth: heart of the brand. The internal articulation of the brand.

Pathways to success

1.5 Tone of Voice

The Brand's Tone of Voice needs to support the overall brand positioning and reflect how the brand speaks to its different stakeholders in a consistent manner.

If there is one word that sums up the right tone for Colleges of Excellence it is... **Expertise.**

Experts are strong, confident and knowledgeable. Their authority does not come from status or rank, it comes from the fact that they really know what they are talking about. Experts don't shout. They don't have to. They are confident.

Our trainees are confident that they are getting the best possible training from the best possible people. And our partners, the employers, are confident that our graduates will be skilled and well-prepared.

So, we should sound like we are experts.
Strong, clear, confident and knowledgeable.

1.2 Brand Story

The Brand Story is a piece of prose that captures the brand's vision, mission, values and essence in an emotive manner.

1.3 Brand Vision and Mission

The Brand Model expresses the vision and mission. It helps employees and external stakeholders to understand what the company is striving for.

We bring the world's best colleges and technical institutions to the Kingdom.

For the first time you can find the same training that you'd get in Germany, Japan or the USA.

Along with the chance to connect with our partners, local employers.

There's a real future for you. Right here. Right now.

To train for the best possible future, look for the best possible place.

Vision:
Connecting learners to world class training, opening the door to a successful future.

Mission:
We foster relationships between top quality training providers, learners and local employers.

2 Wave 1 colleges tenders

3 Wave 2 tender – Update and next steps

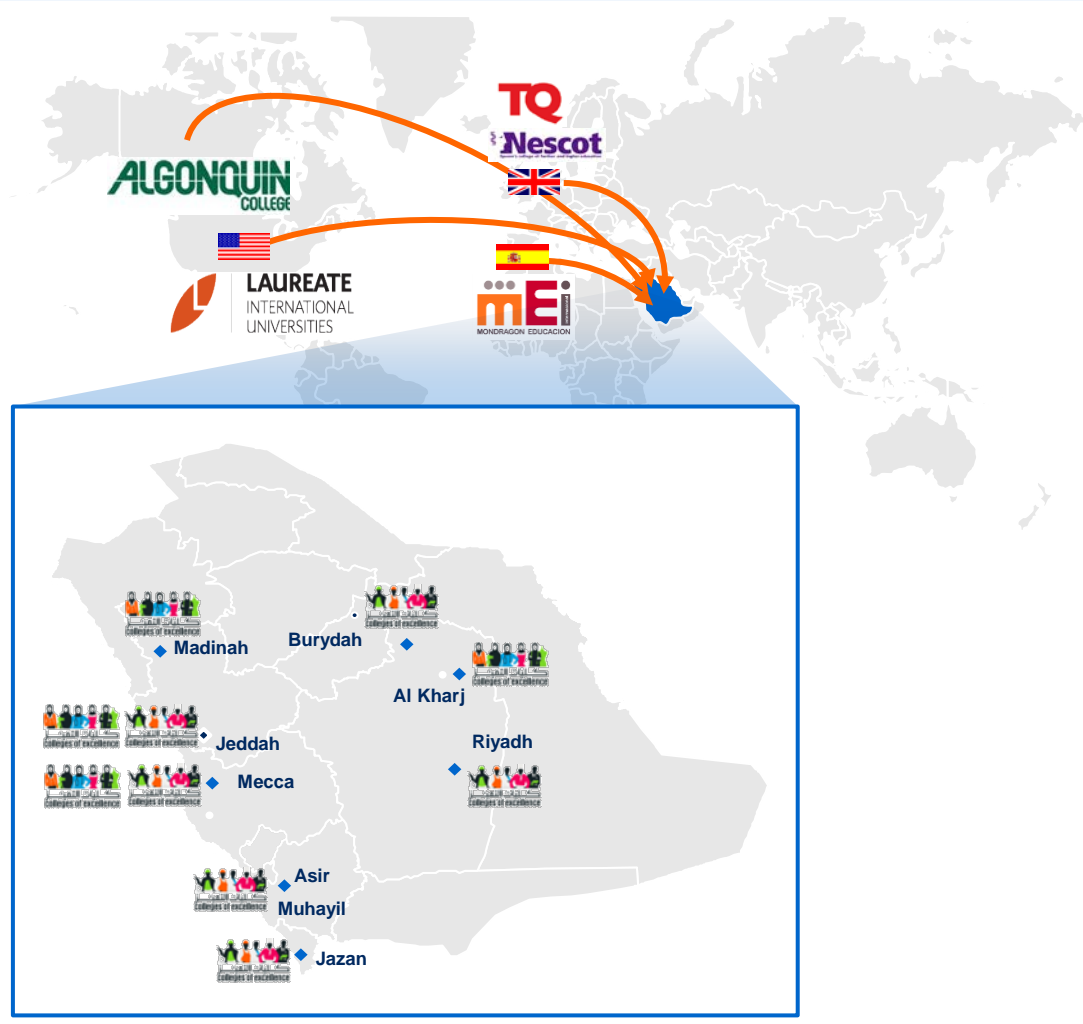

4 Summary

4 decisions have been taken to develop the clusters which will be tendered in Wave 2

To maximize coverage at a reasonable cost 11 geographical college clusters have been identified for Wave 2

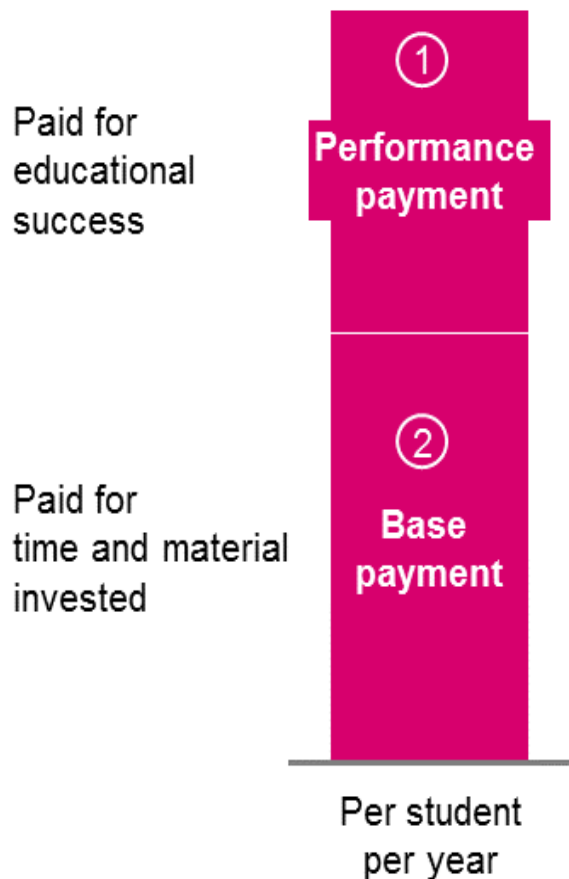

59 providers from 124 colleges have already expressed interest in Wave 2

Interested bidders increased by 60% from 36 in Wave 1 to 58 in Wave 2

Providers will be paid using a base component and a performance component

Per enrolled student CoE pays ...

Payments are composed of ...

- 1a Institutional review payment
 - 1b Assessment payment
 - 1c Employability payment
- Providers state price for 1,000 annual guided learning hours (GLH)
 - “OTJ”
 - 200 “OTJ” training hours per year in Year 2 and Year 3 minimum
 - 1 OTJ-hour to be priced with 20% of 1 GLH
 - Adjustments
 - Attendance: Courses are paid only, if less than 20% absence per trimester
 - Repeating student: Courses paid with 50%
